ITAR Registration

Customers,

We are pleased to announce our continued growth and scope in handling customer sensitive information. As such we are now registered with the DCA to handle ITAR information.

Our customer approvals include:

We now Passivate!

AMS 2700 or QQ-P-35

Method 1 = Nitric

Method 2 = Citric

Capabilities:

Method 1, types 1,4,6

Method 2 (All processed the same)

Testing by Method 102 Copper Sulfate only

ASTM A967

Capabilities:

Types Nitric 2, Citric 3, Nitric 5

Testing by Practice D, F, G

If you would like to discuss this process, please contact me or your Customer Service Representative.

As always, we will continue to give excellent value including:

- Short lead times, utilizing 2 full shift potential
- Customized costing to your needs
- Certified quality performance
- Our commitment to continuous improvement

Please give us an opportunity to show you how we can be a truly value-added supplier for years to come. Visit us on our website at www.performancecoating.com

Best Regards,

Ren Courey

General Manager
